A GUIDE FOR DETERMINING

UNIFORM SYSTEM OF ACCOUNTS

TO BE APPLIED TO

REA TELEPHONE BORROWERS

F O R W O R D

This pamphlet is to be used as a guide by REA personnel to determine the proper system of accounts to be applied to REA Telephone Borrowers. For convenience, the material has been arranged by sections.

The first column headed "State and Commission" shows the name of the state and the name of the commission having jurisdiction over telephone companies therein. The second column headed "Uniform System of Accounts" shows the class of telephone company A, B, C and D and the uniform system of accounts to be applied, either Federal Communications Commission or state. The third column headed "Classification of Companies" shows either Federal Communications Commission or state. If FCC, refer to classification of telephone companies in Part 31 and 33 Uniform System of Accounts. For uniform systems of accounts prescribed by states, the minimum and maximum annual gross revenues are specified by class of telephone company.

<u>State & Commission</u>	<u>Uniform System of Accounts</u>	<u>Classification of Companies</u>
